

COVID-19 Update_23 March 2020

Thank you to all parents and caregivers for your support and cooperation with our constantly changing COVID-19 actions. Like all public schools in SA, we will continue to operate until national health advice changes. We will also continue supporting families who make the decision to voluntarily isolate their children, as best we can.

We understand that the new approach regarding drop-off and pick-up of students at school has been a challenge for many, but we need your on-going support with this Government directive.

From tomorrow, we will open up the double gates on the Diagonal Road side of our school crossing on Keynes Avenue, from 3.00pm to 3.30pm. This will allow parents/caregivers to wait for their children on the western grass area if need be, whilst still observing the social distancing recommendation of 1.5m. If you do plan to use this area, please talk with your child(ren) about meeting you there, and leave school grounds as soon as possible.

For all office inquiries, we kindly ask that you phone our administration line on 8296 2678, rather than present in person.

On the whole, we have been very impressed with the level of independence shown by our students at this difficult time. This has included taking themselves into their classrooms and following school and hygiene routines. We will continue to support and build upon the resilience and self-management skills of our students as we work through this together.

With thanks and kind regards,

Josh Vick - Principal
